distinction between the Bulgarian government and the Bulgarian people, no repressive measures distinction between the Bulgarian Milton McLean, the three mine managers, to Lordsburg, N. M., Saturday night. Simpson and Penn were severely beaten before making their escape in an automobile.

Free Hand for Russia.

Even M. Madjariow, Bulgarian miner to Russia, will not be expelled. His passports will not be given to and he will be permitted to remain undisturbed, although no official rela-tions will be maintained with him, as the representative of King Ferdinand. The foreign office explains that the fact that Russia alone sent an ultimatum to Bulgaria was due to voluntar mition on the part of her allies of this nation's predominance in the Balkans and of her moral claim upon

the gratitude of the Balkan peoples. Whether England, France and Italy whether England, France and Italy will withdraw their representatives at Sofia in case Russia takes this action has not yet been decided. Russia felt compelled to make this move, in view of the failure of all efforts to bring pressure through other means on King Ferdinand. It is the view of the Russian government that the recall of its minister would convince the Bulgarian people that King Ferdinand's policy is dangerous.

Bulgaria Makes Denial.

SOFIA, October 2, via London, October denial that German officers have taken control of the military affairs of Bulgaria and that Germany is supplying that country with funds are contained in an official statement issued through the Bulgarian News Agency.

The text of the statement follows:
"In view of erroneous and frankly mendacious statements circulated in the foreign press regarding the situation in Bulgaria we are authorized to deny in the most formal manner all these rumors:

Three Stories Denied.

First, concerning the arrival in Soft of German officers who are alleged to be taking a hand in the administration of the railroads or the command of the army; second, concerning alleged statements of Premier Radoslavoff that as long as the war lasts Bulgaria will re ceive regularly from Germany 50,000,000 francs (\$10,000,000) monthly; third, con cerning numerous arrests which are said to have been caused by internal disturbinces.
"As to the assertions of certain news-

papers that the Radoslavoff cabinet will not be qualified to direct the des-tinies of Bulgaria because it will not have a majority, we must observe that in a parliamentary country, which Bulgaria undoubtedly is, the government which is said not to have supported the premier with a sufficient majority in the sobrianje would not be able to remain in power. Since the cabinet of M. Radoslavoff took over the affairs of the country over two years ago its position never has been shaken. After all, there is nothing provocative in its policy for any one, and it is astonishing to see the attacks made in part turbance. The total number of employes of the plant is approximately of the foreign press against the attitude of the Bulgarian government."

Palmer of the Grand Army.

Col. Palmer, who was the principal speaker, reminded his auditors, most of them old soldiers of the back-fire in 1861, "that was so very discouraging to us and encouraging to the enemy." He declared that the United States today must be a unit in supporting the ad-ministration in a time of national crisis, and that there must be no pull-ing against it. "We must be behind our President all the time," he declared. "I'm for him. The Grand Army is loyal to him and wants peace with all lery exchanges in the vicinity of the world without sacrifice of any of our rights on land or sea.

"Convey to your children," Col. Palmer urged, "what you know now that is of interest to the national welfare. This government was made for man. It is our duty to care for and safeguard the government and our rights as a nation."
